I also loved Louise's progression throughout and the ending was just so bittersweet and really, perfect for Christmastime. He is the complete opposite of Tyler and he has his eye on Louise, but are his good looks and charming personality enough to change her opinion of men?

She's having a bit of a hard time and has moved back home with her young daughter. Lance and Melissa are married and Melissa has been having an affair with Tyler. Not as good as some of the ones I read this time last year but definitely got me in the Christmas mood. I enjoyed the pace of the story, the plot twists and the end of the book, where when just as the insanity peaks, a second horrific situation explodes. Email address.
