The potential drawbacks of group therapy, however, are no greater than for any other form of treatment. Unlike methadone, Suboxone can be prescribed by physicians in an office-based environment by a Suboxone-licensed doctor. Covers four major substance categories – alcohol, benzodiazepines, opiates, cocaine, and nicotine. GetStartedNowright-arrowcopy. The naloxone has no effect when Suboxone is taken as directed orally but if the drug is dissolved in solution and injected, the opioid antagonizing properties will induce opioid withdrawal. Leader Activity.
